

Spanish Classes

WHY LEARN SPANISH?

Spanish is becoming more and more important with regards to business and if you speak Spanish, you will be more marketable and have more career choices than your monolingual counterpart.

Spanish is one of the easiest foreign languages to learn. Much of its vocabulary is similar to English, written Spanish is almost completely phonetic and the basic grammar is straightforward enough that you can have meaningful communication after only a few lessons.

METHODOLOGY

We use a communicative method by which you will be able to practice and use your Spanish from your first day. This communicative approach enables the student to get the strategies and knowledge you will need to manage in a Spanish environment.

Teaching methods are developed and updated within the framework of International House World Organisation, rewarded worldwide for using the best current language teaching methods.
